Government Bullding Wisdom.

A paper has been drawn up in form of a petition, but is not yet in circulation for signatures, addressed to Secretary of the Treasury Manning asking the establishment of a branch office "down town," in case the proposed government building is located "on topof the hill," as a means of cultivating the nathetic tastes of the community. No date is fixed for transmission of the document to

headquarters. The Dayton Journal drops the following by way of seasonable advice touching the same

Springfield people are hotly discussing the location of the new public building which General Keiler yanked through Congress tor them. It is probable that they will put it down in a hollow where it can't be seen, as they did their new court house. People who don't live there wonder that such a building as the court house should be chucked into a hole, and will not be surprised if the United States building is dis-posed of in the same manner. But Dayton people have nothing to say since the building of their new court house. Our County Commissioners that up everybody by accepting the poorest plan, architecurally considered, that was offered for consideration. Nevertheless, if Springfield desires to exhibit herself to the traveling public, she ought to try and avoid the holes and avail herself of her beau-tiful terrace too the public building that Dayton would have if Emanuel Shultz had been returned to Congress.

Mr. McGargen, July 22 .- The early mornng hours at the Grant cottage were cool and e reshing. On the verandah the thermometer narked at 2 o'clock this morning 72 degrees. This was the equable temperature maintained in the sick room, while Gen. Grant renained in New York, and to it was added the sweet smell from the pine trees that bend ever the cottage roof. Gentle breezes nirred at the General's window, near which sat the sick man, and fanned his ace more gratefully than could the careful ands that were waiting near. Between 2 and 3 a, m. Mrs. Grant came out upon the verandah. Ten minutes she sat motionless er face rested against one hand. Suddenly here came a sound of a rattling, lat oring cough rom within. It was the general clearing the affected parts of his throat of mucus, Mrs. Grant left the pinzza quickly and seated herself by the General's side, slowly fanning the sick man's face. The coughing was not se-

Dr. Douglas administered food and afterward cleansed the General's throat. As the physician laid aside his appliances, General Grant leaned forward in his chair and signified a desire that a lamp should be grought. The nurse fetched the lamp, held it at the sick man's shoulder and he asked for his writing pad.

He wrote but only briefly. It was a private family coummunication, and when finished the sick man resumed his half-resting posi-50c. Important Business Change.

We are authoritatively informed that Mr. Gover E. Highley, of the firm of Messrs. Bruce, Hank & Co., of this city, and formerly with Messrs. Mast, Foos & Co., nas purchased the large Oil Mill standing on the top of the South Bluff of Buck Creek, at the head of Factory street, from Mr. John Foos, who has owned it for many years. Captain E. L. Dodson, who was formerly with Mesors. Warder, Bushnell & Glessner, has taken an interest in the concern with Mr. Highlet These gentlemen, who have a high standing and reputation as business men, will prosecute the work of manufacturing linseed oil and the well-known Cottage Color paints. It is well known that Mr. Foos maintained a high standard of excellence in the products of the concern, and we feel sure that the new owners and managers will not allow the quality of their goods to suffer in comparison with his or any that are put on the market.

Petty Thieves Captured.

Between 7 and 8 o'clock this morning, Officers Ward and Nicklas arrested John Worthington, on Kenton street, and Tom Rose, on the corner of East street and the railroads, for stealing potatoes. About a bushel and a half of the Irish apples were found in their posse sion, which they had stolen from some patch near town. They were taken to iail to await a bearing.

The same officers arrested Smith Dudley and Sam. Cheek, both colored, who have been in the babit of stealing coal from the Ohio Southern yards and selling it at 5 cents per sack. They were accustomed to depositing their stolen goods with Patrick Ganz. They also were jailed on a charge of petit larceny.

Careless Shooting.

This afternoon an affidavit was filed against Emanuel Coles for shooting within the limits of the city. Last evening he and four or five companions came out of Sparks's saloon, on the corner of Mill Run and Vine streets. As they were walking down Mill Run street near Spring, one of the party who was a little shead tu ned about and playfully skipped a boulder back along the pavement at those in the rear. This seemed to rouse Coles's ire, for he pulled his pistol and shot square ahead, but hit nothing. The crowd then walked on very peaceably.

At the hour of going to press black clouds are rising from the eastern and southeastern borizon, with good prospect of refresning showers and a let up from the oppressive heat. Under their influence the mercury, in a short time, dropped ten degrees and is now 84 or 85 in the shade. Everybody is rejoicing in the hope that the backbone of the heated term is broken.

As Officers Nicklas and Ward were returning home late this morning after a fine night's work, they saw a colored man with a pure white goat, who skipped as soon as he saw them and left the animal. It is now at the house of William Rhodes, across the creek, where its owner can have it by identifying his property.

Thomas Rose was arrested yesterday afternoon for assisting in a Hill fight in which hair, wool and clothing suffered to a great extent. It was nothing more nor less than the Hill rackets generally amount to. Mrs-Rose, Mary Cheek and others were interested

REBELS REPULSED. LONDON, July 22.-A dispatch from Cairo states that a large body of rebels, a few nights ago, made a vigorous attack on Kassala and attempted to take it by storm. They attacked the place at three points, but the garrison poured into their columns a destructive fire and succeeded in repulsing them at every point. The garrison then sallied forth and nursued the retreating enemy so close that they fled precipitately, leaving behind them 2,000 oxen and sheep, 700 rifles and a large quantity of ammunition. The rebels lost fully 3,000 in killed and wounded. The casualties to the garrison were small.

A dispatch received here yesterday afternoon states that the King of Dahomey with a large army has massacred the French in the protected vitiages. The King has also captured 1,000 French prisoners, and he and his followers propose to eat them. The Admiraly is maturing measures for

The Temperature at New York Raised to 98°—A Number of Cases of Death and Prostration.

INTENSE HEAT.

NEW YORK, July 22.-Yesterday was one of the most trying days of the summer. New Yorkers when they arose in the morning knew what was before them and prepared for it. They donned their thinnest clothing and few ventured forth unprotected by a sun umbrella. At three a. m. the mercury marked 74°; at six o'clock 76°; at nine o'clock 80° and at eleven o'clock it touched 87°. Not a few brokers who found their favorite stocks idle began to speculate

on the mercury and many bets were made that it would touch 100°. The heat seemed almost to blaze up in the street as it was reflected from the pave ments. It was almost blinding to drivers of vehicles, and the horses that had to drag loads of living and lifeless freight suffered terribly. Among the poor people in the crowded districts the suffering was intense. Men, women and children huggest the side of the street where there was a strip of shade, and as it disappeared they crept into cellars, hails, under stoops, any where to escape the sun. The temperature at three p. m. was 98°. A number of cases of death and prostration caused by the heat

were reported.

The Bureau of Vital Statistics reported 160 deaths yesterday. Nearly double the average. Ninety-two of these were of chil-dren under five years of age. Early in the evening the sky clouded and a few rain drops fell. The threatened storm passed over, however, leaving the city but little The thermometer at 11:30 last night registered 82° and the probabilities are that we will have just as warm a time to-day as yesterday. THE GRANT TRUST FUND.

Arrangements Being Made to Reinvest the \$250,000 Trust Fund Raised for the

New York, July 22.-It was learned yesterday morning on good anthority that arrangements were making to reinvest the \$250,000 trust fund raised for General Grant, or that portion of it which was invested in the first mortgage bonds of the Wabash Railroad. It was said that this reinvest ment of the fund would be made on the 1st of August, because the trustees of the Morof August, because the tributes of the Morgan estate desired to be free from the responsibility attached to them. When the funds were invested in the Wabash bonds Governor Morgan gave his personal guarantee for the payment of the principal and interest. A reporter yesterday talked with a gentleman who has been fully sequentially with all the transactions. fully acquainted with all the transactions ever since the fund was invested in these bonds under Governor Morgan's personal guarantee, and asked him how this money guarantee, and asked him how this money would be reinvested. His reply was: "I cannot say. It is not yet certain that the funds will be reinvested. The question is now under advisement and will be definitely decided some time within the next two weeks. It is not true that all the amount raised for General Grant, \$250,000, is invested in Wabash first mortgage bonds. I do not care to, say what parties of this do not care to say what portion of this amount was so invested. If the trustees of the Morgan estate desire to turn over the amount of money for which Governor Morgan made himself responsible and accept these bonds, that fact will be made known

in a short time." MORMONDOM.

Mass Meeting Remonstrating Against the Test Oath Law. SALT LAKE, Utah, July 22. - The only arrest for unlawful collabitation yesterday was Thomas Porcher, a poor man. His polyga mous wife is his own niece. It came out in the examination that she had borne tenchildren in ten years, all of which were dead. Porcher was held for trial.

A special brings particulars of a monster mass meeting held by the Mormons of Paris, Idaho, to remonstrate against the Test Oath law recently passed by the Idaho Legislature. This law prohibits any person from voting, holding office, or serving as a juror who belongs to an organization that teaches or practices polygamy as a religious Institu-tion. Bear Lake County, of which Paris is the capital, is peopled almost exclusively by

Mormons, there not being enough Gentiles to fill the offices. CHATTANOGGA. Tenn., July 22.-The two Mormon Elders who were arrested in Carter County, Tenn., under the new statute forbidding the preaching of polygamy in the State, were tried on Monday. Elder Mor-gan, president of the southern branch of the church, conducted the defense. The Judge charged that unless they actually advised their hearers to adopt polygniny, they were not culpable. One of the Elders was dis-charged and the other held under bonds. It is the first case in this State and will be carried to the Supreme Court.

Stabbed His Brother. BUFFALO, July 22. - William Wirthbitzki is a boss in the Lehigh Valley coal yards and his brother Gottlieb works at the same place. For some unexplained cause Gottlleb is jealous of William's standing with his employers and has frequently provoked quarrels with him on that account. On Monday Gottlieb began to abuse his brother who told him to go away. At this Gottlieb knocked William down. The latter was in the act of ejecting Gottlieb from the premises when he drew a knife and stabled William in the left side inflicting a danger-

ous wound. Gottlieb was arrested. Fatal Explosion.

HUNTINGDON, Pa., July 22.-Another frightful explosion occurred on the line of the South Pennsylvanian Bailroad near Sheepskin Hollow Cut about half a mile south of Ft. Littleton at a late hour. One Hungarian and two Italians, (names un-known,) were instantly killed. Forcman J. Martin and an unknown negro were proba-bly fatally injured. Owing to the remote locality of the scene of the accident partien lars can not be obtained. The accident is said to have occurred through the negligence of workmen in preparing a blast,

GENERAL GRANT.

The Life of the Nation's Patient Slowly Ebbing Away at Mt. McGregor.

The Doctors Give It as Their;Opinion that the Life of the Patient Can be Protonged but a Pew Hours Longer.

SLOWLY EDDING AWAY.

Mr. McGnegon, July 22.-At dusk last vening General Grant grew very restless. He was not content to keep his chair as was the case early in the day, but wanted to move to his cot and to other chairs. He way not able to walk unaided, nor scarcely to rise, and seemed unable to compose himseln in any place five minutes at a time. It was decided about eight o'clock to change him to the parlor. All the family assembled there with Dr. Newman. The General soon began to eatch for breath and there were plain signs that he was sinking. Fans were used vigorously upon him, but for half an hour he showed no improvement. Then his breathing became easier and he fell asleep. That was the turning point of the early

evening. After it he s'ept and awoke at short intervals, the family going to his side whenever he awoke, not knowing what it whenever he awoke, not knowing what it might mean. He showed no signs of gaining strength, although occasionally of repose that promised to prolong his hears. It was the opinion of Colonel Grant all the evening that he can not live through the right. Dr. Doughas says he may last twenty-four hours longer. U. S. Grant, Jr., was summoned early last evening.

At 11:30 o'clock, on awaking from a short nap, the General sent word to the family

nap, the General sent word to the family, who were sitting on the porch, that there was no use in their sitting up any longer. The family asked Dr. Douglass what he thought. He would give them no assur-ance. All except Colonel Grant concluded to retire. Rev. Dr. Newman, who then lof retire. Rev. Dr. Newman, who then left the cottage, said that from seven o'clock until nine all indications were that the General was dying. Prayers were held, the General clasping his hands, while the family knelt around him. Dr. Newman said that neither Mrs. Grant nor he could believe the General was dying even while he can't the General was dying, even while he sank before their eyes. He thinks the night will pass safely. A crastant watch, of course, will be kept on the General, and all will be summoned if there is a sign of failing.

1 A. M.—Dr. Douglass has telegraphed all the absent members of the family that if they wish to see the General alive they must come immediate y as he does not think life can be prolonged later than this evening. The doctor has also summoned all the other physicians to come at once to Mt. Mc Gregor.

THE ROACH FAILURE.

John Reach Nearly Recovered from His Prostration-Report that \$600,000 is Held Back by the Government Denied. NEW YORK, July 22.-Mr. Stephen W. Roach was the only member of the firm at the office of John Roach & Sons yesterday morning. He reported that John Roach had nearly recovered from his prostration and would, in a day or two, be able to attend to the duties incident to the examination into his affairs by his assignees. Mr. Roach repeated his statement of Monday that it would be several days before the schedule of liabilities and assets would be

A gentleman, for many years in intimate relations with John Roach, denied the re-port that about \$600,000 was due the firm on Government contracts, and this amount has been withheld by the present administration pending the settlement of the Dolphin difficulty. Garrett Roach yesterday, while depaid for, refused to say whether or not the ills were due from the Government.

Only a few of the employes have sought work at other factories, most of them agreeing in the belief that the works would soon he open. Speaking of the feeling of sympa-thy among the workmen, one of the former in the machine shop said: "Three hundred and sixty men signed the resolutions we sent to Mr. Roach Monday evening and the number would have been six hundreevery man employed by John Roach beep present when the paper was circulated. We all have confidence in Mr. Roach and we shall patiently and hopefully wait to see him come out of his troubles."

Crop Report of the Winter and Spring Wheat States. ROCHESTER, N. Y., July 22.-Special crop reports from all the winter and spring wheat growing States to the American Rural Home of this city, states that in the Northwest the winter wheat situation is generally considered favorable, but Michigan alone raises a crop equal to that of 1884. In Southern Illinois, Ohlo, Missouri, Kansas, Tennessee and Kentucky there has been no improvement in the past thirty days. In the latter two States the millers are buying old wheat to start up their mills. The spring wheat prospects indicate an average crop if the hot sun does not scoreh it. The grass crop of the Northwest will not equal that of 1881. Oats stand beautifully. Corn shows growing improvement, having made a great gain in the last fourteen days.

Raiding Reds. GALVESTON, Tex., July 22 .- A San Anonio special says: A private letter from Kinney County states that hostile bands of Indians, taking advantage of the withdrawal of the cavalry from this district, are at large on the frontier. The writer states that two Mexicans at the mouth of the Pints Creek, eight at Los Vegas and about twenty at other points, have been killed in the trans Rio-Grande near the border by Indians, and that a band of fifteen raiding war-riors have been in Kinney, near Manning brother's ranch. So far as learned no less of life has attended the Indian raid in Texas.

Hung Himself.

BLOOMINGTON. Ill., July 22 .- Abraham Denser, a German farmer who on Monday burned his house and barn and all his live stock to prevent his wife, who is sueing for a divorce, from getting any property and who was supposed to have himself perished in the dames, was subsequently found hid-ing in a clump of tall weeds and was lodged in the county fail. During the night he improvised a rope from his suspenders, a towel and a piece of cord and hung himself from the door frame of the cell closet being found dead yesterday morning.

Natural Gas at Cincinnatt. CINCINNATI, July 22 .- While workmen were boring an artesian well yesterday at Hoffheim's brewery, natural gas was struck, which the firm estimates will save \$1,500 a month in fuel. There is considerable excitement here over the discovery.
